

Data Center

RALEIGH-RTP

TierPoint helps your organization manage risk, drive performance and improve agility. Our state-of-the-art facility in the heart of the Raleigh Research Triangle is part of a nationwide network of data centers with a shared commitment to:

1. Carrier Neutrality and Redundancy

By having many on-net carriers and by supporting cross connects to other carriers, you get access to the Internet bandwidth and connectivity services of your choice.

2. Security and Compliance

Equally important is a company-wide emphasis on security and compliance including the establishment of a national office to define and deploy best practices to serve client needs.

3. Responsiveness and Expertise

All of our data centers are supported by people who are passionate about client success, responsive to unique client requirements and who have the technical expertise and desire to help clients achieve their business goals.

DATA CENTER HIGHLIGHTS

- Tier III Certified by The Uptime Institute
- SSAE I6 SOC 3 Type III Certified
- One of seven (7) interconnected TierPoint Data Centers in NC
- Fully 2N Designed and Commissioned for all systems
- 24x7 security and technical operations, providing high-touch hands-and-eyes support
- 100% SLA for facility, power and network
- Leading hybrid IT data center providing connectivity to a variety of cloud options
- Ability to provide DR solutions (DRaaS) to 38 interconnected data centers nationwide
- Dedicated, local compliance team to help our customers meet regulatory compliance needs

The RTP data center is a safe, secure facility audited under HIPAA, PCI DSS, SSAE-I6 SOC I Type II, SOC 2 Type II and SOC 3 Type III standards annually.
