

Data Center

CHI - CHICAGO (WEST)

TierPoint helps your organization manage risk, drive performance and improve agility. Our state-of-the-art facility, five miles from O'Hare Int'l Airport, is part of a nationwide network of data centers that share our commitment to:

1. Carrier Neutrality and Redundancy

By having many on-net carriers and by supporting cross connects to other carriers, you get access to the Internet bandwidth and connectivity services of your choice.

2. Security and Compliance

Equally important is a company-wide emphasis on security and compliance including the establishment of a national office to define and deploy best practices to serve client needs.

3. Responsiveness and Expertise

All of our data centers are supported by people who are passionate about client success, responsive to unique client requirements and who have the technical expertise and desire to help clients achieve their business goals.

DATA CENTER HIGHLIGHTS

- 15,650 sq. ft of raised floor
- 10G inter-facility bandwidth
- Security profile includes multi-factor authentication requirements for data center access, mantraps and video surveillance
- 2N or system plus system power design
- 2MW of initial distribution capacity with each customer cabinet served with redundant A-/B-side power feeds
- Two (2) 2MW Cummins backup generators each with 4,000 gallons of fuel storage
- Carrier neutral, resilient 10Gb Internet connectivity with high availability
- All infrastructure concurrently maintainable

TierPoint's CHI - Chicago (West) facility is audited under SSAE 18 SOC 2 Type II, PCI-DSS*, GLBA and HIPAA standards annually, as well as ITAR and EU-US Privacy Shield registered.

*PCI-DSS – Certification on PCI-DSS Requirement 9 & 12 (Physical Security and Information Security Policies) on data center (colocation) services. Colocation provides secure space, power, and environmental controls for merchants and service providers, some of which fall under PCI compliance. No logical access to any customer systems that may contain cardholder data.

CHI - Chicago (West) Data Center Specifications

Facility

- 89,000 total sq. ft. with 15,650 sq. ft. gross raised floor space
