

Data Center

SLO - ST. LOUIS (OLIVE)

TierPoint helps your organization manage risk, drive performance and improve agility. Our state-of-the-art facility, close to our corporate headquarters, is part of a nationwide network of data centers with a shared commitment to:

1. Carrier Neutrality and Redundancy

By having many on-net carriers and by supporting cross connects to other carriers, you get access to the Internet bandwidth and connectivity services of your choice.

2. Security and Compliance

Equally important is a company-wide emphasis on security and compliance including the establishment of a national office to define and deploy information security best practices.

3. Responsiveness and Expertise

All of our data centers are supported by people who are passionate about client success, responsive to unique client requirements and who have the technical expertise and desire to help clients achieve their business goals.

DATA CENTER HIGHLIGHTS

- Downtown St. Louis—power is underground and plentiful
- Cooling economization—use of outside air cooling system saves more than 3,000 hours of chiller run time annually
- Pod-based hot aisle containment system that enables supply air to be delivered at 66-68 degrees vs. 55-58 degrees in a typical data center
- Starline busway system—allows TierPoint staff to add or change power circuits in under 20 minutes without an electrician
- TierPoint owns a fiber loop that connects to two regional carrier hotels in downtown St. Louis
- Staffed 24x7 as a TierPoint Enterprise Operations Center and Managed Services Center
- Covered parking garage with 7,000 lb., 7-ft. tall freight elevator

TierPoint's SLO - St. Louis (Olive) facility is audited under SSAE 18 SOC 2 Type II, PCI-DSS*, GLBA and HIPAA standards annually, as well as ITAR and EU-US Privacy Shield registered.

* PCI-DSS – Certification on PCI-DSS Requirement 9 & 12 (Physical Security and Information Security Policies) on data center (colocation) services. Colocation provides secure space, power, and environmental controls for merchants and service providers, some of which fall under PCI compliance. No logical access to any customer systems that may contain cardholder data.

SLO - St. Louis (Olive) Data Center Specifications

Facility

- 128,000 sq. ft. facility with 11,000 sq. ft. of raised floor space
