

Data Center

HWT - HAWTHORNE (Bldg I I)

TierPoint helps your organization manage risk, drive performance and improve agility. Our state-of-the-art Hawthorne facility in Westchester County is part of a nationwide network of data centers with a shared commitment to:

1. Carrier Neutrality and Redundancy

By having many on-net carriers and by supporting cross connects to other carriers, you get access to the Internet bandwidth and connectivity services of your choice.

2. Security and Compliance

Equally important is a company-wide emphasis on security and compliance including the establishment of a national office to define and deploy information security best practices.

3. Responsiveness and Expertise

All of our data centers are supported by people who are passionate about client success, responsive to unique client requirements and who have the technical expertise and desire to help clients achieve their business goals.

DATA CENTER HIGHLIGHTS

LOCATION

- Located 35 miles from New York City (NYC) receives and power from two diverse sub stations
- Sits 350 ft. above sea level, is not in a designated 500-year flood zone and is also outside of NYC's 12-mile blast zone
- Substantial economic savings: NY tax abatement for customers can save thousands
- TierPoint operates two separate buildings in Hawthorne, sharing a 91-acre campus with the Westchester County Medical Center and the New York Medical College

INFRASTRUCTURE

- Diverse dark fiber ring into III 8th Avenue and 60 Hudson Street in NYC
- Significant amount of room for expansion
- Build-to-suit business continuity suites include conference rooms, Internet connectivity, phone service and more

TierPoint's HWT - Hawthorne (Bldg I I) facility is audited under SSAE 18 SOC 2 Type II, PCI-DSS*, GLBA and HIPAA standards annually, as well as ITAR and EU-US Privacy Shield registered.

* PCI-DSS – Certification on PCI-DSS Requirement 9 & 12 (Physical Security and Information Security Policies) on data center (colocation) services. Colocation provides secure space, power, and environmental controls for merchants and service providers, some of which fall under PCI compliance. No logical access to any customer systems that may contain cardholder data.
