

Data Center

TUL - TULSA (ARCHER)

TierPoint helps your organization manage risk, drive performance and improve agility. Our state-of-the-art facility, located in the heart of the nation's energy belt, is part of a nationwide network of data centers that share our commitment to:

1. Carrier Neutrality and Redundancy

By having many on-net carriers and by supporting cross connects to other carriers, you get access to the Internet bandwidth and connectivity services of your choice.

2. Security and Compliance

Equally important is a company-wide emphasis on security and compliance including the establishment of a national office to define and deploy information security best practices to serve client needs.

3. Responsiveness and Expertise

All of our data centers are supported by people who are passionate about client success, responsive to unique client requirements and have the technical expertise and desire to help clients achieve their business goals.

DATA CENTER HIGHLIGHTS

- 36,000 sq. ft. facility
- 8,384 sq. ft. of production raised floor space.
- Largest carrier-neutral telecommunications space in Tulsa
- 24x7x365 electronic and physical security with two-factor authentication, including the use of biometric scanners
- Marconi I200A-48v DC power plant
- Redundant power configuration consisting of multiple generators, UPS systems and PDUs
- 13,517 sq. ft. of business continuity disaster recovery space
- TierPoint-provided, redundant IP bandwidth available with 10Gb connectivity

TierPoint's TUL - Tulsa (Archer) facility is audited under SSAE 18 SOC 2 Type II, PCI-DSS*, GLBA and HIPAA standards annually, as well as ITAR and EU-US Privacy Shield registered.

* PCI-DSS – Certification on PCI-DSS Requirement 9 & 12 (Physical Security and Information Security Policies) on data center (colocation) services. Colocation provides secure space, power, and environmental controls for merchants and service providers, some of which fall under PCI compliance. No logical access to any customer systems that may contain cardholder data.
